About Us

Serre Technological Agriculture Co. was established in 2020 as Ankara based. Serre Technological Agriculture manufactures freeze Dried fruits and vegetables, also operates greenhouses.

Within the scope of Good Agricultural Practices, our products, that are harvested from our cultivated areas and contracted agricultural or horticultural areas, do not contain any additives, preservatives and added sugars. In our Freeze Dry Facility located in Ankara Polatlı; we dry our products in their most natural form, preserving their taste and nutritional values.

Vision

Serre Technological Agriculture, has adopted the principle of sustainable efficiency in fruit processing by establishing a sustainable supply chain thanks to contract agriculture members and greenhouse cultivation. The goal is to establish facilities in 4 important points of Turkey and Eastern Europe until 2030, to develop contract agriculture partnership and to be among the leading companies in the processing of fruits.

Our Core Values

Transparency and Open Communication

No matter where and whenever customers engage with us, our experienced team is committed to deliver excellence and good experience.

Equity

As an institution, we do not compromise on the principle of equity at all stages from procurement to production, from production to sales and after, and we attach importance to law and ethics in our approach to all our stakeholders.

Respect, Tolerance and Humility

We are continuing our relations with fondness, respect and tolerance.

Being Visionary and Progressive

We always invest in technologies, differences and opportunities that will carry our company, products and services to a higher level in competition, and we adopt the sustainability as a principle.

Environmental Consciousness and Sensitivity

By conducting R&D and P&D studies, we create an infrastructure that uses less plastic and is 100% recyclable. From production to logistics, we do not compromise on quality and savings, both in the use of raw materials and in energy consumption.

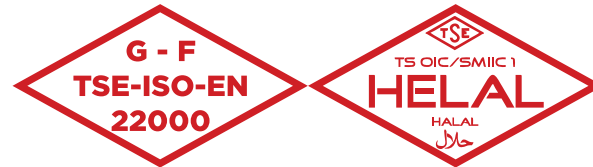

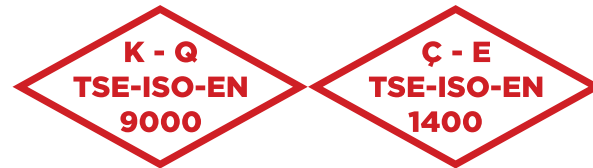

Our Quality Policy

Serre Technological Agriculture; By taking technology and international standards as a reference and identifying risks and opportunities constantly renews and develops itself. Serre works within the framework of the principles of safe and legal products of defined quality in a way to instill mutual trust and satisfaction with customers, suppliers and business partners.

While carrying out our activities we commit

- To comply with legal regulations, legislations and customer requirements,
- To fulfil necessary improvement in the processes we carry out the quality management system and food safety management system,
- To be privileged with "Serre Quality" in the sector, with its deadline, cost and hygiene features in the projects we carry out with all our customers, suppliers and business partners,
- To give importance to training and teamwork so that all our employees become individuals who can use their talents at the highest level, and to establish the quality awareness in all employees in this direction,
- To be a reference organization that respects society and the environment, and to contribute to the country's economy by constantly improving its turnover.
